📍 Dhaka, Bangladesh

Career Objective

Full-stack software engineer with hands-on experience building scalable enterprise web applications using ASP.NET Core, C#, Angular, and SQL Server. Passionate about software architecture, design patterns, performance optimization, and solving complex business problems. Eager to contribute to high-performing teams, expand expertise in Cloud (Azure), Docker, Microservices, and Clean Architecture, and develop innovative solutions.

Experience

ERA-InfoTech Limited - Associate Software Engineer
Paltan, Dhaka

October 2025 - Present

- Working on enterprise-level financial and banking solutions with a focus on scalable web applications.
- Collaborating with cross-functional teams to design, develop, and deploy software using modern web technologies.
- Actively involved in system optimization, debugging, and implementing new modules based on client requirements.
- Continuously learning and contributing to software architecture and performance improvement initiatives.

Synergy Interface Limited - Junior Software Programmer
Mirpur DOHS, Dhaka

December 2024 - October 2025

Human Resource Management System - Meghna Life Insurance:

- Managed employee records, leave, payroll, and loans.
- Handled recruitment, performance tracking, and HR policy implementation.
- Conducted training and ensured compliance with employment regulations.

Accounts and Inventory Management System – RMS Electronics:

- Built inventory and accounting system with integrated stock management, ledger, journal entry, trial balance, and financial reporting.
- Utilized ASP.NET Core MVC with EF Core for backend logic and MS SQL Server for database management, ensuring efficient queries and optimized performance.
- Collaborated with a team to follow best practices in software design, scalability, and maintainability.

Skills

Backend: C#, ASP.NET Core (MVC, API), Entity Framework Core, ADO.NET

Frontend: Angular, JavaScript (ES6+), TypeScript, Bootstrap, Tailwind CSS

Architecture Patterns: SOLID, Repository Pattern, Dependency Injection, Layered Architecture

DevOps Deployment: Docker Containerization (Dockerfile, Docker Compose, image pull/push), Familiar with CI/CD concepts, Interested in Azure Cloud DevOps

Databases: MS SQL Server, MySQL (Queries, Stored Procedures, Views)

Tools Version Control: Git (Branching, Pull Requests), GitHub, Postman

Testing Optimization: Debugging, performance optimization, learning xUnit Moq

Others: Crystal Reports, RDLC, OOP, Data Structures Algorithms, Agile/Scrum (working environment)

Projects

E-Sports E-Commerce Platform

- An online e-commerce platform tailored for e-sports products with separate dashboards for both Admin and Users.
- **Admin Dashboard:** Manage products (add, edit, delete), track customer orders, monitor payment statuses and inventory updates.

- **User Dashboard:** Enabling customers to browse products, manage carts, and track orders.
- Integrated secure **SSLCommerz Sandbox Payment Gateway** for online transactions.
- Implemented authentication and authorization using **ASP.NET Core Identity**.
- **Technologies Used:** ASP.NET Core MVC, Entity Framework Core, MS SQL Server, Bootstrap 5, Identity.

Tuition Hub

- A web-based platform developed to connect students with private tutors across Dhaka, Bangladesh. Provides features for tutor registration, subject/category selection, and profile management for both students and tutors.
- Implemented using a layered MVC structure with Entity Framework for efficient database interactions and form validation.
- Designed a clean and user-friendly interface for smooth navigation and improved user experience.
- **Technologies Used:** ASP.NET MVC 5, Entity Framework, SQL Server, HTML5, CSS3, JavaScript, Bootstrap.

Student Management System

- A comprehensive student management system that enables efficient handling of student records. Features include full CRUD (Create, Read, Update, Delete) operations, along with detailed views of student information such as ID, name, email, and contact number.
- Designed for ease of use and data integrity, ensuring seamless administration and accurate record keeping.
- **Technologies Used:** ASP.NET MVC, C#, Entity Framework, Angular, MS SQL Server.

Voucher Entry Project

- A web-based application for managing voucher entries to process and record payments received from the Accounts department.
- Integrated **Crystal Reports** for generating professional financial and payment reports.
- Implemented cookie-based authentication to secure user access and session management.
- **Technologies Used:** ASP.NET MVC, Entity Framework (EF), SQL Server, Bootstrap 5, Crystal Reports.

Education

Noakhali Science and Technology University BSc in <i>Computer Science and Telecommunication Engineering</i> CGPA: 3.52/4.0		Noakhali, Bangladesh Jan 2019 – July 2024
Govt. Ananda Mohon College Higher Secondary Certificate (HSC), Science GPA: 5.00/5.00		Mymensingh, Bangladesh Passed: 2018
Ashujia JNC Institution Secondary School Certificate (SSC), Science GPA: 5.00/5.00		Netrokona, Bangladesh Passed: 2016

Publication

Md. Kamrul Hassan Khan, Moumita Shib, Suhrid Talukder, A.R.M Mahamudul Hasan* "**Enhancing Intrusion Detection with Ensemble Learning: Naive Bayes and XGBoost on Network Traffic Data**", published in *Lecture Notes in Networks and Systems*, Springer, 2025.
 DOI: 10.1007/978-981-96-2721-9_19

Problem solving

Solved **500+** problems on various online judges, including Codeforces, Beecrowd, and LeetCode.

Co-curricular Activities

- **Vice President**, CSTE Club, 2023–24 Executive Committee
- **Volunteer**, Machine Intelligence and Emerging Technologies (MIET-2023), NSTU
- **Member**, NSTU Football Team — Participated in multiple inter-department tournaments (Semi-finalist, 2023)
- **Captain**, CSTE Cricket Team — Participated in multiple inter-department tournaments (Quarter-finalist, 2024)
